NATURE RESERVE

G canoe

H forest

I tapir

J capybara

K otter

L bird

Catrina and Paulo lived with their parents and grandparents in a small village in the west of Brazil. Catrina and Paulo's family had four cows and some geese and hens. They also grew beans and corn.

COUNT

How many cows, geese and hens are there?

Bean plants

Grow a bean plant.

You need:

a broad bean seed

a jam jar

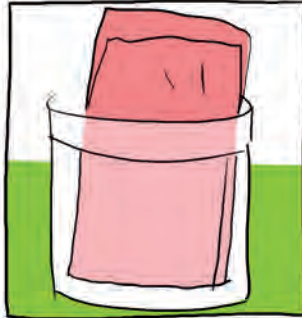

a napkin

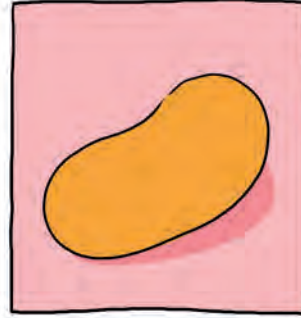

water

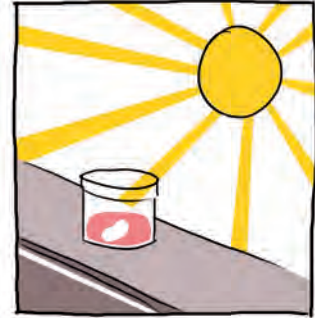

1 Put some water in the jar and tip it out. Leave the jar wet.

2 Roll up the napkin and put it in the jar.

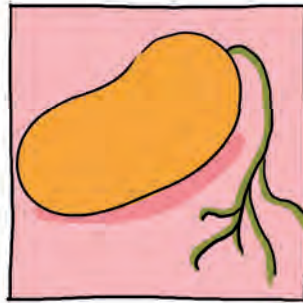

3 Put the bean in the jar.

4 Put the jar in the sunlight.

5 Give your bean a little water every day.

6 Watch the roots and the stem grow.

7 Download your **Bean Growth Chart** from ezonekids.helbling.com. Write how much your bean grows every day.
