

1 Write the body parts.

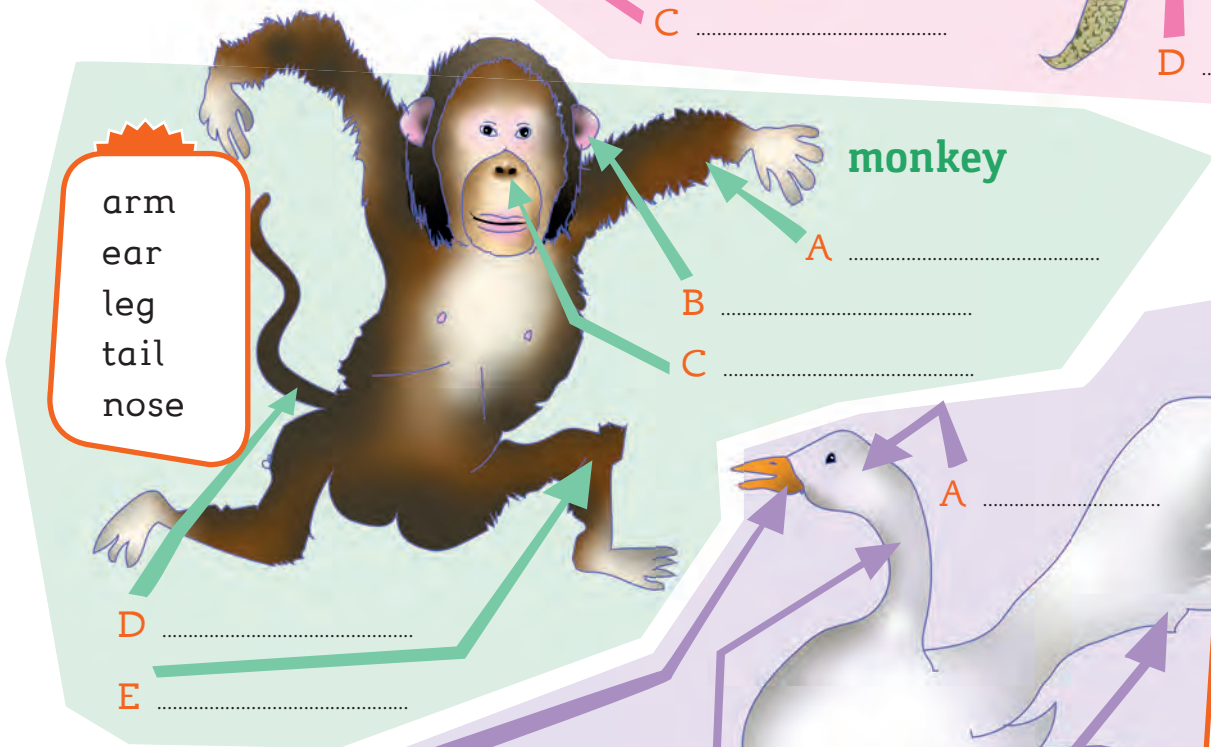

snake

mouth
tongue
eye
body

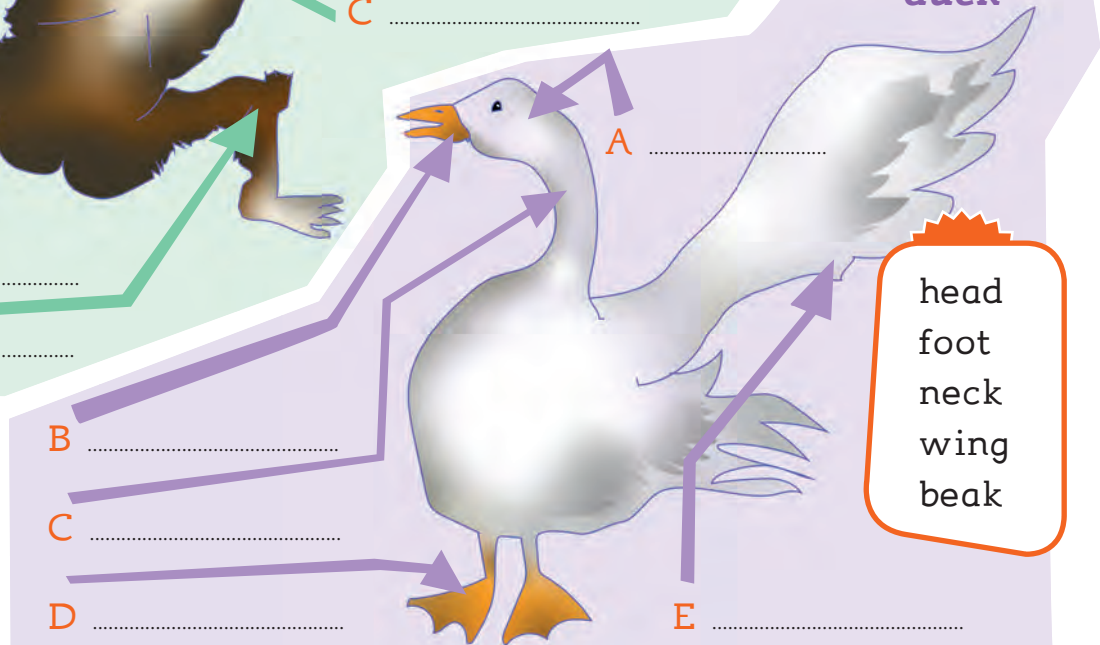

monkey

arm
ear
leg
tail
nose

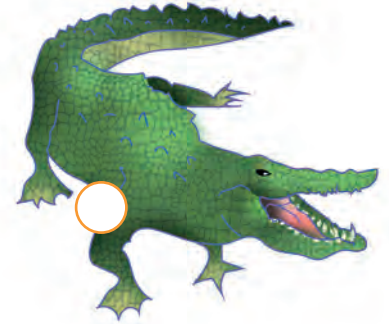

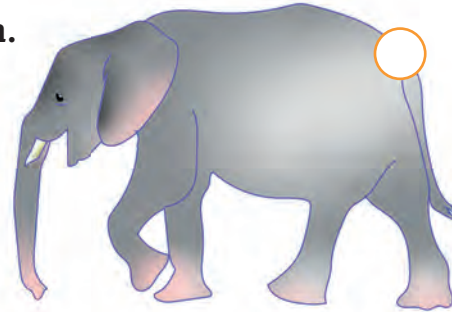

duck

head
foot
neck
wing
beak

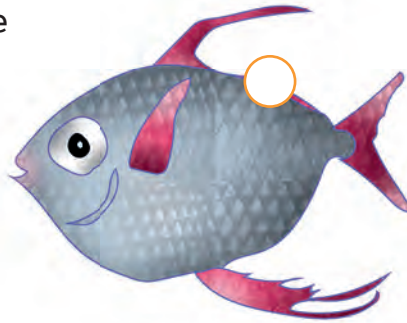

2 Read and match.

- A
- big eyes
 - wings
 - six legs

- B
- four legs
 - a big mouth
 - a long tail

- C
- a long nose
 - big ears
 - short legs

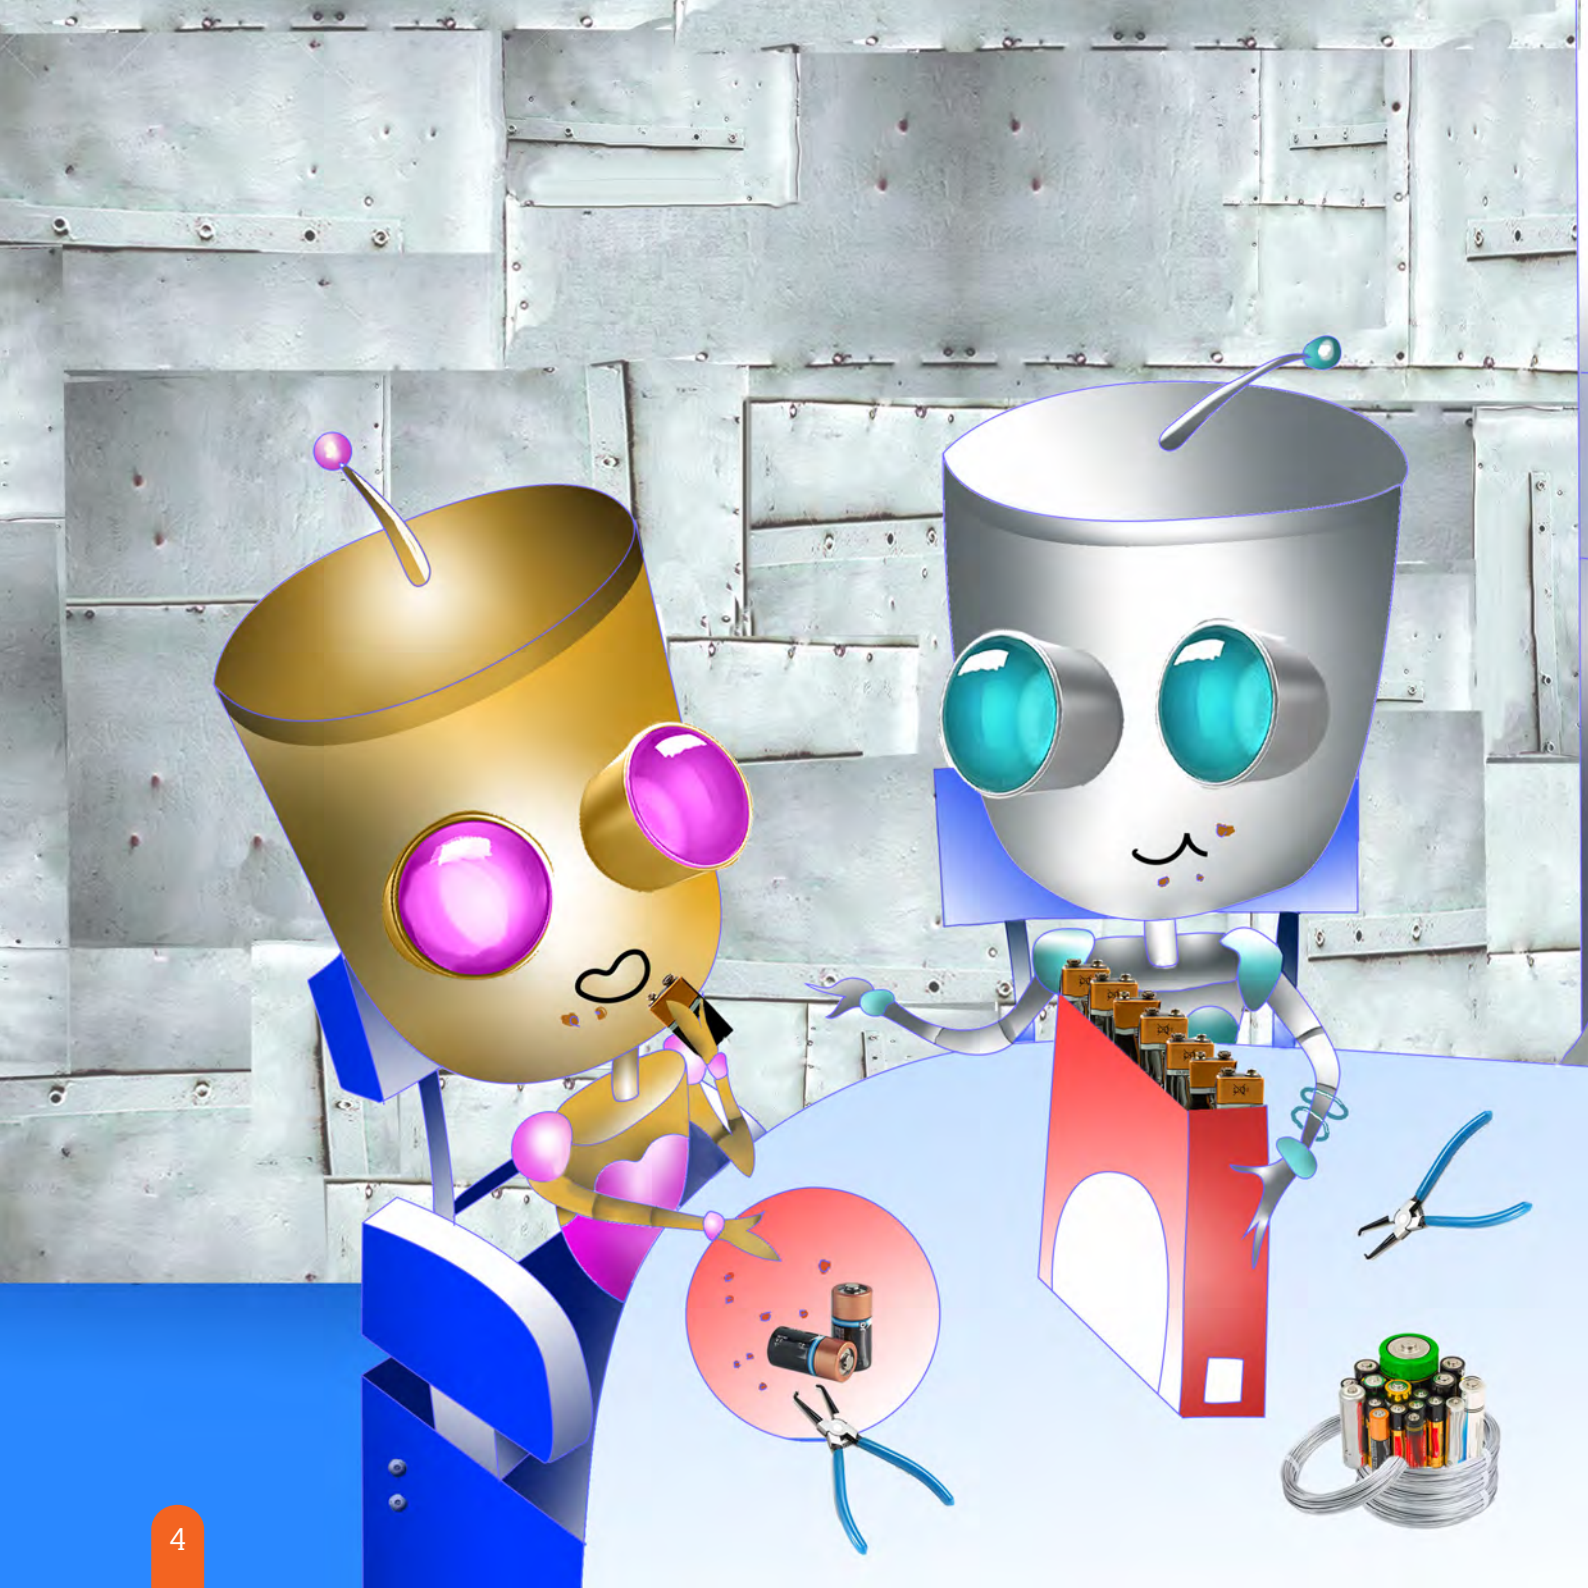

- D
- no legs
 - no arms
 - big eyes

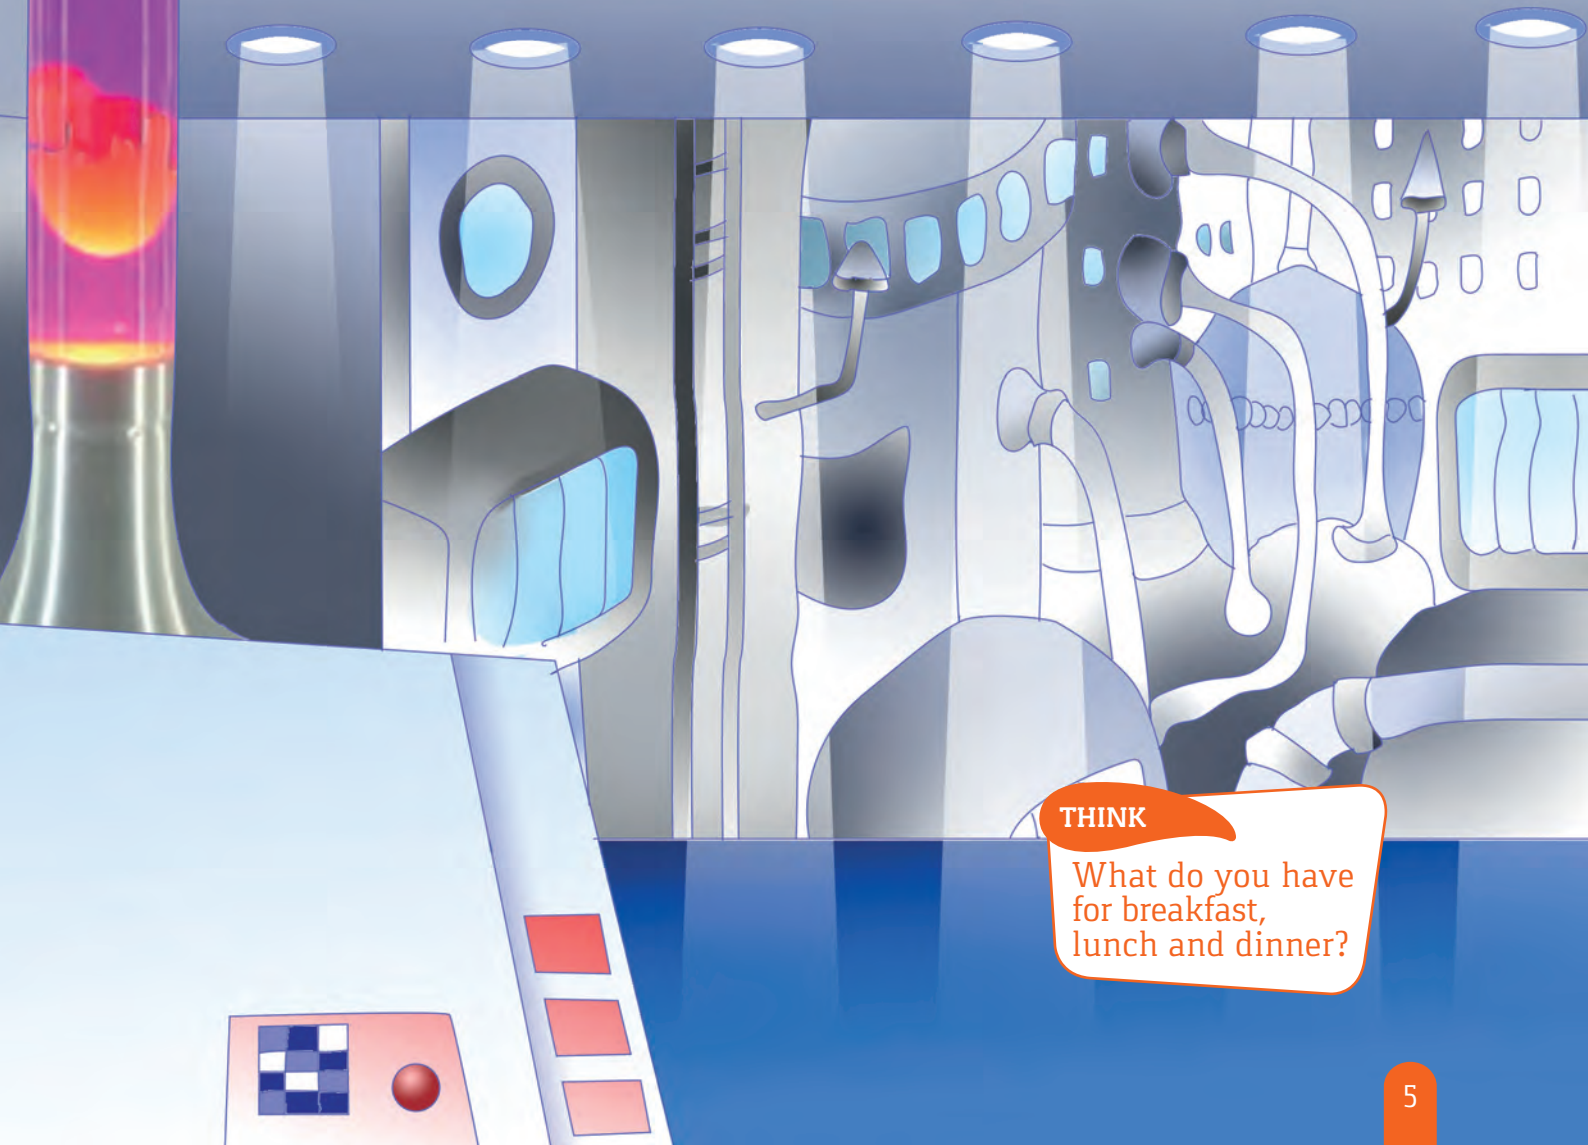

3 Draw an animal and list the body parts.

In a big metal house, on a long metal street, in a huge metal city, lives a family of robots: Mr and Mrs Robot, and their daughters, Goldy and Silvy. They have batteries for breakfast, drink oil for lunch and have wires for dinner.

THINK

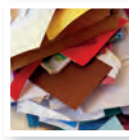

What do you have for breakfast, lunch and dinner?

Make an animal robot

You need:

coloured pens

paper, fabric foil, etc.

glue and sticky tape

clean recycled packaging

- 1 Make your robot. Stick it together with glue or sticky tape.

- 2 Add more body parts to your robot and decorate it.

- 3 Talk about your robot with your friends.

The wings of a bee.

The tail of a dolphin.
